### About Metro

Metro, a world leader in providing technology, storage and transport solutions for healthcare facilities, offers products for every department, including fixed point of care, mobile telehealth, automated dispensing, clinical documentation and specialized procedures. Designed to optimize workflow, maximize space and enhance productivity, Metro's expanding portfolio of healthcare products includes all Flo, Lionville and MedDispense products, offering a broad range of solutions that range from mobile computing workstations to medication management carts, shelving systems, cabinets and accessories. With a renewed focus on enhanced discovery, new technology integration and collaboration, Metro is able to respond more readily to the market's changing needs and provide a much broader portfolio of solutions for every facility. For more information on Metro and its diverse breadth of healthcare products, visit <http://www.metro.com>.

### About Emerson

Emerson (NYSE: EMR), based in St. Louis, Missouri (USA), is a global leader in bringing technology and engineering together to provide innovative solutions for customers in industrial, commercial, and consumer markets through its network power, process management, industrial automation, climate technologies, and tools and storage businesses. Sales in fiscal 2010 were \$21 billion. For more information, visit <http://www.emerson.com>.

### Product Overview

Metro's MedDispense Series offers a variety of automated dispensing solutions to meet the specific needs – and budgets – of diverse healthcare facilities. Our solutions are scalable for a wide spectrum of care settings, including long-term care, residential treatment centers and smaller hospitals, as well as larger facilities. With a touchscreen, intuitive software and logical controls, MedDispense combines security with simplicity to streamline medication management, increase efficiency, decrease operational cost and improve patient care.

- Secure, 24-hour access
- Reliable hardware
- User-friendly software
- Configurable for specific needs

### Testimonial

*“Since adopting the MedDispense system in 2007, we have seen significantly reduced medication errors and streamlined our pharmacy operations while improving reporting of adverse drug reactions. While a variety of factors have contributed to this success, the MedDispense system is the biggest reason we have achieved these important goals.”*

— Joanic Chesnutt,  
 Director of Pharmacy  
 Alliance Health Center

*User interface is easy to use, quickly learned and robust enough for the unique dispensing needs of every customer.*

### Markets Served

- Long-term Care
- Acute Care
- Critical Access Hospitals
- Long-term Acute Care
- Correction Facilities
- Medical Education
- Ambulatory Surgical Centers
- Rehabilitation Hospitals
- Hospice
