Company Overview

PEPID provides pharmacists with the clinical and drug information needed to make better-informed decisions. Hospital pharmacies use PEPID's advanced information and tools to improve patient care, reduce the occurrence of medication errors and increase workflow efficiency.

Pharmacists around the world access PEPID's leading content via our industry-leading mobile applications, online and integrated into healthcare information systems.

Product Overview

Imagine the power of being able to access the entire AHFS Drug Information, integrated into disease profiles, linked to interactive dosing calculators, lab tests, drug interaction checkers, drug-allergy checkers and patient education handouts. Pharmacist Pro with AHFS provides your pharmacists with access to fast, accurate clinical and drug information all in one place.

Pharmacist Pro provides all the clinical information your pharmacists need, integrated with all the AHFS drug information you know and trust, all in one source to save time, improve patient care and minimize medication errors.

See for yourself why more hospitals and pharmacies are switching to PEPID.

Delivery

Pharmacist Pro is available anytime, anywhere online, integrated into your electronic medical records (EMR) system, or on any mobile device, including iPad, iPhone, Android, BlackBerry and more.

Modules

PEPID provides everything your pharmacist needs in one reference, allowing you to cut costs.

■ Pharmacist Pro includes

- AHFS Drug Information – fully integrated
- Patient education handouts that can be customized and printed
- 3,000+ drug-specific, weight-based dosing calculators linked to AHFS monographs
- Extensive natural products reference
- 3,000+ clinical conditions and diseases that allow you to search by indication
- 400+ lab tests
- Interactive drug-allergy checker that detects sensitivities at the agent level
- The most powerful drug-interaction checker available that ranks by severity and provides pharmacokinetic and pharmacodynamic information for each interaction

Events

American Society of Health-System Pharmacists, booth #413
