## Company Background

Retail Management Solutions is the industry leader in point-of-sale technology for retail and outpatient pharmacy.

RMS is the only POS supplier specializing strictly in pharmacies. Having installed more POS systems in the independent and institutional pharmacy markets than any other company, RMS systems have become the industry standard.

For outpatient pharmacy, we provide a seamless front-to-back transaction and information platform. Security and compliance are paramount, and our rock solid systems have built-in safeguards. Redundant storage, encrypted communications and certified payment mechanisms ensure protection and confidence.

You can count on us for prompt service in all 50 states, 24 hours a day, seven days a week. We are a privately held company, with employees throughout the country — pharmacy technology professionals with hundreds of years of combined experience.

## Product Overview

Pharmacy should have a growing role in the health of your discharged patients. Most hospitals capture a small portion of their inpatient discharge prescriptions. The consequences include reduced patient compliance, elevated risk of recurrence and readmission, and lost revenue.

EvolutionPOS helps hospital pharmacies participate more proactively in the discharge process.

Taking the sale to the patient bedside offers convenience for patients and their family members. EvolutionPOS is easy to use, and it places all the register functions in your hands. The mobile, handheld unit communicates immediately, wirelessly and securely with your POS server. A single device accomplishes the customer check-out, recordkeeping and inventory functions, including:

- Interfacing to your prescription system
- Capturing electronic signatures and providing a full audit trail
- Documenting pharmacist counseling
- Processing payments, including FSA/HRA cards
- Providing receipts via email or printed on the spot

EvolutionPOS for Pharmacy is based upon the success of our industry-leading POS offerings, Star-Plus, Star-Lite and Star-Link for Enterprise. All are designed specifically to enable pharmacists and their staff members to provide excellent and efficient patient service.

## Features & Options
