Company Background

Talyst is a market leader in pharmacy automation and your expert partner in pharmacy operations. Our solutions provide enterprise-wide medication management across your entire health system to offer greater inventory control, enhanced workflow efficiency, and improved patient safety. As of 2012, Talyst has installed automated systems in more than 600 integrated healthcare systems, acute care hospitals, long-term care facilities, and correctional institutions.

Product Overview

AutoPharm® Enterprise, Talyst's powerful software platform, manages your inventory across your health system. Its enterprise-wide inventory management system controls multiple medication inventories with one automated system to ensure inventory is on-hand and accurate.

The software platform allows you to manage your complete pharmacy inventory from arrival in the pharmacy to the patient care area. AutoPharm Enterprise integrates with your existing pharmacy information system to improve the way you stock, manage, and track medication inventory. It enables barcode-driven pharmacist checks for improved patient safety and easier, more accurate recordkeeping. The platform also provides broader high-alert medication warnings, and improves overall medication management.

Additional Product Lines

AutoPharm® Mobile, AutoCarousel® HD, Refrigerated AutoCarousel® HD, AutoVault®, AutoCool®, AutoPack®, AutoLabel®, AutoSplit® 340B, AutoSplit® Contract Pharmacy, InSite®

Product Specifications

Talyst offers a suite of hardware products powered by AutoPharm Enterprise for a comprehensive pharmacy automation solution.

AutoCarousel® HD provides heavy-duty, secure automated storage for all of your medications. Its efficient vertical design ensures maximum storage in a compact footprint. The reliable AutoCarousel HD comes with a 10-Year Guarantee, and refrigerated carousels are also available.

AutoVault® provides controlled access and secure hospital-wide management for your controlled substances. It securely stores controlled substances in one or more cabinets based on your storage requirements.

AutoPack® integrates easily with your pharmacy system to provide a fully automated packaging system for oral solid medications. We offer a variety of sizes to meet your pharmacy needs, including AutoPack DO and AutoPack DE.

AutoLabel® by Talyst is a complete barcoding solution that provides color-coded barcode and standard black & white transfer labels to improve patient safety and support your BCMA initiative.

AutoSplit® is a complement of products and services designed to meet your 340B needs. AutoSplit® 340 Desktop is the market leader in automated 340B processing. Our AutoSplit 340B Desktop software automatically monitors all pharmaceutical usage in a 340B-eligible healthcare organization to provide optimized return on all qualified transactions. Talyst's AutoSplit 340B Fully-Managed Solution is a service that provides expert management of all facets of your 340B program, allowing health systems, IDNs, and their contract pharmacies to boost savings by having dedicated 340B experts run the program. AutoSplit® Contract Pharmacy allows health systems to capture additional 340B savings from hospital scripts dispensed at retail pharmacies. AutoSplit Contract Pharmacy is an end-to-end managed service that gives covered entities the opportunity to capture increased 340B savings.
